## Container Handling [Bulk/Mini-Bulk]

Refillable container. Refill this container with Lexar Herbicide only. Do not reuse this container for any other purpose. When this container is empty, replace the cap and seal all openings that have been opened during use; and return the container to the point of purchase or to a designated location named at time of purchase of this product. The container must only be refilled with this pesticide product. DO NOT REUSE THE CONTAINER FOR ANY OTHER PURPOSE. Prior to refilling, inspect carefully for damage such as cracks, punctures, abrasions, worn-out threads and closure devices. Check for leaks after refilling and before transporting. Do not transport if this container is damaged or leaking. If the container is damaged, leaking or obsolete, contact Syngenta Crop Protection LLC at 1-800-888-8372. If not returned to the point of purchase or to a designated location, rinse emptied container as described below. Disposal of this container must be in compliance with state and local regulations.

To clean container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.

# Container Rinsate

Where Syngenta has assisted customers with Mini-bulk recycling in 2012, we have spent over \$100,000 in rinsate disposal costs.

Virtually all rinsate is treated through thermal destruction.
